An Invasion of the Province by Insurgents Causes Alarm.

The Patriots Have Captured the Village of Esperanza.

Communication Between Villa Clara and Cienfuegos Cut Off—Spanish Commander Mustering Every Able-bodied Citizen into the Spanish Defense.

HAVANA, Aug. 16.—The invasion of Santa Clara province is causing alarm in Spanish ranks. An attack on Villa Clara city is expected. The patriots have captured the town of Esperanza. All communication between Villa Clara and Cienfuegos has been cut off. The Spanish commander here has mustered every able-bodied citizen into the forces for defense. The patriots have managed to leave Weyler's entire central troops in darkness by capturing the town of Colonias, where the captain general had an electric light plant which supplied the whole line. The patriots held the town long enough to cripple the machinery and lines by blowing up the engine with dynamite.

The patriots have blown up another troop train just outside of Puerto Principe. The commander, fireman, engineer and 12 soldiers were killed.

### A PRISONER

Slashes Five Policemen With a Razor and Escapes by Jumping From a Window—Subsequently Wounded and Captured.

PITTSBURGH, Aug. 16.—James Elbert arrested as a suspicious character and supposed to be an anarchist, created big excitement Sunday morning at the police station by slashing five policemen with a razor. One of the officers, George McIntyre, was horribly cut on the face, one wound extending from the ear to the throat, taking part of the ear. His condition is serious. The others, Geo. Cole, Jas. McEvoy, W. E. Coreless, and Wm. Kenney are badly cut, but not seriously. Elbert, after cutting his way through a guard of 15 policemen, made his escape from the station by jumping 30 feet from a rear window, hotly pursued by officers, while blood streamed from their wounds. After a chase of several squares, Officer Coreless finally fired his revolver, the bullet taking effect in Elbert's right arm and he was then captured. The man fought desperately and had to be clubbed into insensibility before he could be taken back to the station. Elbert now lies in the jail hospital in a precarious condition. Elbert is an Austrian, who had been working at the Armstrong cork factory until lately, when he was discharged on account of his anarchistic and troublesome ways. He has since been threatening Mr. Armstrong's life, and was arrested because he insisted on hanging around the factory after being repeatedly warned off the premises.

### PROBABLE LYNCHING.

A Mob After the Assailant of Mrs. and Miss Heathcock.

CHATTANOOGA, Tenn., Aug. 16.—Will Phillips, the man who recently criminally assaulted Miss Sallie Jones, daughter of a wealthy Georgia planter residing near this city and who was arrested in Arkansas, was taken to jail at Lafayette, Walker county, Ga., Sunday where the crime was committed. A mob had been organized to lynch Phillips as soon as Miss Jones identified him, but her father prevailed on them to let him go to trial. Posses are in pursuit of the assailant of Mrs. and Miss Heathcock, and every road and avenue to Chickamauga Park is being guarded by armed men. If caught the man will never reach the jail, as more than a hundred men have sworn he shall die at once. Miss Heathcock and her mother have both recovered consciousness and have given an ample description of their assailant. A large reward has been offered for the man. The assaults on Miss Jones and the Heathcocks occurred within a mile of each other.

### Sunbonnets for Horses.

LONDON, Aug. 16.—The straw manufacturers of Luton have been doing a big business in sunbonnets for horses, owing to the instigation of the government and the society for the prevention of cruelty to animals. The hats are shaped on the Bordeaux model, having a high crown and a broad brim like the straw bathing hat used in the United States, with holes for the horses ears. The use of the bonnets has greatly decreased the summer mortality among horses in France.

### AFTER GOLD.

Nearly One Thousand Men of Every Class in Victoria Ready to Sail for Alaska. VICTORIA, B. C., Aug. 16.—There were in Victoria Sunday morning close upon 1,000 men of every class and from every part of the world who were just crazy to get started on the long trip to the new Eldorado. These men had tickets which will carry them to Skagway bay on the big Collier Bristol, or on the steamer Islander, both of which sailed Sunday. The Bristol has been fitted with bunks and stalls for horses from the bottom of her hold to the top of her cabin deck, and every bunk and stall is occupied, close upon 500 men going on the Bristol and just as many horses and mules. Even the big Collier is filled up, the feed for these animals and the outfit for the men taking up an immense amount of space. The Islander has just as big a crowd, but much of the space on her is taken up by a contingent of mounted police, their horses, dogs and outfits. They realize that they have a winter's trip before them before they reach Dawson City and are taking dogs and sleighs. Horses will be taken as far as possible, and when they are of no more use, will be killed and used as food for dogs. A few of the men are going up with the idea of purchasing cheap outfits from men who became discouraged and are turning back; but most of them are well provided and all are taking pack animals, they having in this respect taken the advice of men who went before and have written of the difficulty of securing animals or Indians to pack goods across the Pass.

## DON CARLOS

On the Death of Canovas and Affairs in Cuba.

He Favors Unflinching Severity in Repressing the Rebellion.

Followed by Generous Concessions to Local Requirements—The Carlist Movement Increased in Strength and Discipline—Time Comes, Will Fight.

LONDON, Aug. 16.—The correspondent of the Daily Telegraph at Lucerne has had a long interview with Don Carlos on the death of Canovas and Cuban affairs.

Don Carlos declared that the American remonstrances and hints of interference were mere balloons, which ought not to be taken seriously. He said that the United States, if these attempts had been resolutely repelled by the Spanish government, would have withdrawn its extravagant pretensions. What was wanted in Cuba, he argued, was unflinching severity in repressing rebellion, followed by generous concessions to local requirements and aspirations.

In conclusion Don Carlos declared: "The Carlist movement in Spain has greatly increased in strength and discipline during the last decade. I am in touch with every branch of it. There will be no more futile risings or useless bloodshed, but when the time is ripe every one will be ready to fight to the death for the throne."

Pending his decision, the preliminary injunction against the miners was continued.
